PERFORMANCE HIGHLIGHTS

Management Commentary

Commenting on the results, **Mr. Udayant Malhoutra, CEO and Managing Director** said:

“Last fiscal year has been a turnaround year for us. During the year, we took various initiatives to strengthen our financial position and made investments in creating capacities and improving our capabilities to be ‘future ready’. A stronger operating platform coupled with an enhanced balance sheet situation along with the improving global business environment will put us in the next trajectory of growth.

Our Aerospace and Defense segment continued its robust performance whilst Automotive segment demonstrated signs of recovery and Hydraulics continued to be under pressure. In the Aerospace and Defense segment we won new orders and started making deliveries to Boeing and Bell Helicopters for their existing orders. Our current order book is robust at Rs. 60 billion which gives us the confidence of sustained future growth. The outlook for the automotive segment is positive as the global auto sector continues to improve. Although Hydraulics segment has been under pressure but we have received new orders and expect this segment to perform better in the coming year.

We are quite pleased with the results of our various strategic initiatives over the past couple of years. Management team is ‘future ready’ and look forward to exciting times ahead.”

FY15 Revenue Breakup

Performance Overview

- Revenue growth in India driven by strong execution of orders. UK revenue impacted by change in revenue mix
- Decline in EBITDA margins y-o-y at India was primarily due to operating costs to enable production as per new orders; Higher employee cost on account of increased hiring for new projects
- **Outlook:** Strong order book in excess of Rs 60 billion. New orders and delivery of existing orders to drive growth
- **Strategy:** Establishing state-of-the-art Bangalore facility; developing capabilities in large aero-structural assemblies, composites, and high precision aero-structure design and engineering

FY15 Revenue Breakup

Performance Overview

- India revenue impacted by continued slowdown in the Indian tractor industry due to the unseasonal rainfall. UK revenues declined due to muted demand in Europe for agricultural machinery and also spare parts
- Higher employee cost on account of LTS (long term settlement) in India
- UK profitability affected y-o-y due to volume decline
- **Outlook:** New orders expected in the UK. Demand expected from pick up in the domestic construction equipment and infrastructure industries
- **Strategy:** Focus on OEM market and exports. Growth through replacement market and lean manufacturing systems

FY15 Revenue Breakup

Performance Overview

- Recovery in the Auto sector in India remains sluggish and muted in Germany
- Margins were impacted due to increase in trial expenses for new products in the foundry
- **Outlook:** Higher revenue and profitability expected driven by steel castings production by German foundry; recovery in the domestic auto industry also expected to improve demand
- **Strategy:** Focus on high margin product mix, exports, ramp-up of existing products, performance-critical components, customer diversification, steel castings and capacity utilization

DYNAMATIC OVERVIEW

Diversified business

- A combination of stable and high growth businesses with highly engineered products for the automotive, hydraulic, aerospace and defence industries
- Successful track record of enhancing manufacturing capabilities through R&D and selective acquisitions

Competitive market position

- One of the world's largest manufacturers of hydraulic gear pumps and automotive turbochargers; leadership in hydraulic gear pumps market for over 35 years
- Has 65% share of the Indian organized tractor market, supplies to almost all OEMs in India
- Pioneer and leader in the Indian private sector for manufacture of high precision airframe structures and aerospace components. Tier I supplier to the global aerospace OEMs such as Airbus, Boeing, Bell Helicopters and HAL
- Manufactures high precision, complex metallurgical ferrous and aluminium castings for performance critical components such as turbochargers and exhaust manifolds and has capabilities to develop automotive components on single-source basis

Locational advantages

- Automotive facilities in Chennai, one of India's major automotive hubs and in Germany, a global auto OEM hub
- Aerospace and Defence facilities in Bangalore, headquarters of primary clients and in Bristol, UK's south west aerospace hub

DYNAMATIC OVERVIEW

Vertically Integrated Facilities

- Advanced iron foundry in India and Germany. Also has aluminium foundry in India for captive use
- Owns one of the most advanced ferrous foundries in Europe (Germany) capable of manufacturing highly intricate castings
- In-house division for design validation and optimization, analysis and prototypes
- Has 11 facilities across India (Bangalore, Chennai, Coimbatore, Nasik), UK (Swindon, Bristol) and Germany (Schwarzenberg)

R&D and Intellectual Property

- Owns 17 patents for various products in India and internationally
- Has the design IP for all the products manufactured in the Hydraulics segment
- R&D units recognized by Department of Scientific and Industrial Research, Government of India

Blue Chip Customers

- Automotive: Audi, BMW, Daimler, Ford, Hyundai, Nissan, Tata Motors, Volkswagen
- Hydraulics: Caterpillar, Cummins, Eicher, Escorts, John Deere, Mahindra & Mahindra, New Holland Fiat, Same Deutz-Fahr
- Aerospace and Defence: Airbus, Bell Helicopter, Boeing, GKN Aerospace, HAL, Spirit Aerosystems

Board and Management

- Highly qualified board and management team with significant industry experience
- 6 out of 12 Directors Independent
