PERFORMANCE HIGHLIGHTS

Management Commentary

Commenting on the results, **Mr. Udayant Malhoutra, CEO and Managing Director** said:

“We are pleased to report a strong operational performance supported by growth across all divisions, particularly Aerospace and Defence. This performance is a testimony to the management’s focus on high precision and performance critical products, cost optimization and operating efficiencies. Dynamatic also successfully completed the shifting of the Hydraulics plant to enable overall business growth and drive synergies between divisions. Furthermore, we have become a Tier I supplier to Airbus during the year, in addition to Boeing and Bell Helicopter. These business wins strengthen our position in the attractive aerospace and defence segment, which is a significant growth opportunity for us.”

Management has also undertaken several strategic initiatives during the year aimed at optimizing the capital structure and strengthening its financial position. As a result, our debt has reduced significantly and is expected to decrease further in the coming year.

Dynamatic has combination of stable and high growth businesses, which are vertically integrated to provide operational advantages and cost competitiveness. We have a longstanding track record of partnering with leading global auto, aerospace and agriculture equipment OEMs. As a result of our relationships, we have high margin Aerospace orders of approx. Rs. 30 billion for the next 6 years. This, coupled with an expected improvement in the auto industry, provides a strong foundation for future growth.”

Q4 FY14 Revenue Breakup

Performance Overview

- India revenue declined y-o-y majorly due to challenging macro economic environment
- However, minimized losses on account of focus on cost efficiencies
- German operations registered significant y-o-y and q-o-q growth primarily driven by existing customers
- Profitability of German operations remained stable at 6-7% margins
- Launched steel turbochargers from the Germany facility – a high margin, performance-critical product
- Received additional orders from Daimler and Getrag Ford
- **Outlook:** Uplift in domestic auto industry expected, leading to increased demand
- **Strategy:** Focus on performance-critical components, diversification of customer base, steel castings, increasing exports and capacity utilization

Q4 FY14 Revenue Breakup

Performance Overview

- Strong y-o-y growth in revenues of both India and UK businesses due to higher sales to Boeing, GKN Aerospace and Spirit Aerosystems
- EBITDA margins at UK operations reported a significant decline y-o-y due to changed sales mix resulting in higher material consumption and payment of management fee
- Started production for a major contract from Boeing involving manufacture of cabinets and related parts
- **Outlook:** Expect ramp-up of operations in Q1 FY2015, resulting in increased profitability
- **Strategy:** Establishing state-of-the-art Bangalore facility; developing capabilities in large aero-structural assemblies, composites and complex engineering and focus on multi-axis high speed long bed machining

DYNAMATIC OVERVIEW

Diversified business

- A combination of stable and high growth businesses with highly engineered products for the automotive, hydraulic, aerospace and defence industries
- Successful track record of enhancing manufacturing capabilities through R&D and selective acquisitions

Competitive market position

- One of the world's largest manufacturers of hydraulic gear pumps and automotive turbochargers; leadership in hydraulic gear pumps market for over 35 years
- Has 70% share of the Indian organized tractor market, supplies to all OEMs in India and over 30 countries
- Pioneer and leader in the Indian private sector for manufacture of high precision airframe structures and aerospace components. Tier I supplier to the global aerospace OEMs such as Airbus, Boeing and Bell Helicopters
- Manufactures high precision, complex metallurgical ferrous and aluminium castings for performance critical components such as turbochargers and exhaust manifolds and has capabilities to develop automotive components on single-source basis
- Supplies critical engine and transmission products to ~ 50% of the passenger cars made in India

Locational advantages

- Automotive facilities in Chennai, one of India's major automotive hubs and in Germany, a global auto OEM hub
- Aerospace and Defence facilities in Bangalore, headquarters of primary clients and in Bristol, UK's south west aerospace hub

DYNAMATIC TECHNOLOGIES LIMITED

DYNAMATIC OVERVIEW

Vertically Integrated Facilities

- Advanced iron and aluminium foundries in India and Germany for captive use
- Owns one of the most advanced ferrous foundries in Europe (Germany) capable of manufacturing highly intricate castings
- In-house division for design validation and optimization, analysis and prototypes
- Has 11 facilities across India (Bangalore, Chennai, Coimbatore, Nasik), UK (Swindon, Bristol) and Germany (Schwarzenberg)

R&D and Intellectual Property

- Owns 17 patents for various products in India and internationally
- Has the design IP for all the products manufactured in the Hydraulics segment
- R&D units recognized by Department of Scientific and Industrial Research, Government of India

Blue Chip Customers

- Automotive: Audi, BMW, Daimler, Ford, Hyundai, Nissan, Tata Motors, Volkswagen
- Hydraulics: Caterpillar, Cummins, Eicher, Escorts, John Deere, Mahindra & Mahindra
- Aerospace and Defence: Airbus, Bell Helicopter, Boeing, GKN Aerospace, Spirit Aerosystems

Board and Management

- Highly qualified board and management team with significant industry experience
- 6 out of 10 Directors Independent
